

EFFIVET OTIC is indicated as an ear cleansing solution for mechanical rinsing. It cleans, protects and prevents infections of the ear. This pH neutral, non-irritating topical solution is for use on intact skin areas only.

How to use EFFIVET OTIC

- Use EFFIVET OTIC twice daily for at least 14 days.
- Wash and clean the auricular canal and pinna and remove excess hair if necessary. Do not touch the skin with the tip of the bottle.
- Pour EFFIVET OTIC into the auricular canal until the canal is completely filled.
- Leave to work for a few minutes.
- Dry the ear canal completely with a cotton ball or gauze and completely remove the residual debris.
- No rinsing necessary.
- Not suitable for inner ear infections.

Precautions for use:

For external use only. Discontinue use if irritation develops and contact your veterinarian. For animal use only. Keep out of reach of children.
